

# South African Orienteering Federation

## Resolution of the SAOF Management Committee Adopted on the 19<sup>th</sup> November 2011

The Management Committee of the South African Orienteering Federation formally agrees to align the work of the Federation in sport coaching to the South African Coaching Framework for the period 2012 – 2018. The leadership role within the organization for coaching will be undertaken by the Vice-President Technical reporting to the SAOF President.

A coaching plan for the period 2012 – 2018 will be produced that will deal with all aspects of coaching and coach education at national, provincial and municipal level. This plan will form an important element of the strategy of the Federation, with an appropriate structure, budget, staffing and accountability.

As the SAOF does not currently have a formal coaching framework, this commitment is seen by the Management as an opportunity to develop a formal coaching plan that will lay the base for future work in alignment with SASCOC and the recently developed Long Term Participant Development Plan for orienteering.
