## ORIENTEERING RESULTS FROM NOORDHOEK

Sunday morning at Noordhoek delivered a pleasant, calm day and an enjoyable environment. We were able to make use of the Noordhoek Riding Club facilities which provided a great venue with covered space and amenities, as well as being conveniently located near the centre of the map, thus providing better planning options.

The sandy terrain inevitably provided a tough physical challenge, but one that was aided by conducive weather conditions. Some minor map corrections were needed to update the vegetation since Tim originally drew the map in 2021.

My thanks go to Lou and Brian Docke for the generous use of their interesting farm which provides some nice route choices and different terrain. As always the usual team handled the event management on the day which allowed us to focus on getting the courses up and ready. Our thanks also go to the willing control collectors.

Finally I would like to thank **Gustao** for his hard work and enthusiasm with mapping, planning, map layout and preparation, and map printing. The resulting maps and courses certainly were much better than they would have been otherwise.

Roland Croxford
